Museum

Life and accomplishments of Menachem Begin

Journey to Poland

Exploring the heritage of Menachem Begin through the history of Betar and the Etzel

THE ASPER FOUNDATION

Among the early believers in the idea of a Begin Center, and two of the biggest financial contributors to the building, were Israel **“Izzy” Asper z”l** and Ruth **“Babs” Asper z”l**. Through The Asper Foundation they supported the first major program of the Begin Center – **the Junior Knesset** – which has been going strong for the past 18 years. It is a semester-long program for 9th graders as part of the civics curriculum. The course concludes at the Begin Center with a role-playing exploration of the process of passing a law in the Knesset. The Asper Foundation continues to support the educational programming of the Begin Center every year to ensure that Menachem Begin’s values, Zionism, and love of Israel and the people of Israel will be part of Israel’s future.

There are many opportunities for sponsorship of programs or scholarships and subsidies for participants of various programs.
